

Bridgeport Child Development Center

Bridgeport Child Development Center in Chicago, IL services 100 students with 15 enthusiastic teachers and administrators. This center, unlike so many others has a full size gymnasium and two out play areas, with one on the roof, with great views of downtown Chicago! Their HSBS grant is facilitating the purchase of outdoor art easels (crossing that midline), water tables, and art cabinet and play surface sealant for the scenic rooftop playground. With 4 months of wintery Chicago weather, students are lucky to have an indoor gymnasium where teachers facilitate daily music, dance and other gross motor skill development.

Enid Chesler, HSBS Physical Activity Consultant, spent a morning with these cute little ones, modeling activities to enhance their program. Children enjoyed some IMIL music, play with fruits and veggie bean bags, paper plate skate and the parachute.

Thanks Bridgeport Child Development Center for knowing the true meaning of “Let’s Move”.
