

Grant Cycle Two is Off With a Bang!

Our 2010 grantees are all off and running with their play space enhancements! Polk County Early Learning Center and ICCA - Greenwood Great Beginnings have already made changes to their outdoor play spaces, and the children and teachers alike are loving the outcomes.

Using the Head Start Body Start's Online Community as their platform, the centers are keeping us updated on their progress.

We love seeing centers in action, and are excited to hear more notes from the field. [Join our community today](#), and connect with early childhood professionals across the country.

Are you a Play Space Grant recipient? Share your success stories in the online community and inspire other grantees as they go through this exciting process. Or, you can email us your story at headstartbodystart@aahperd.org.
