As the grand prize winner, Fish will receive 12 Polar Active activity monitors, one Polar Activity Monitor Management System, one Polar Active Quick Guide poster, one Polar Active Activity Progress poster and one Polar Activity Zones poster, valued at over 1,400 dollars. The top ten runner-ups will each receive one Polar Active activity monitor and one Polar Activity Zones poster.

This year's contest was open to K-12 physical education teachers, physical education college professors and graduate students. The national contest provides the opportunity to share creative ideas on how technology can be used to make physical activity and physical education in schools more exciting for students and fellow staff.

The video submission question was: How do you use technology to motivate students and staff to move and be more physically active every day?
